Dear Vicki and Jim,
We are still here and
probably will be here the
rest of the week.

Last night I played bridge at
the penitentiary and it was a
wonderful evening. My partner was
a real nice person from Seattle and
will get out next January. He was
an excellent bridge player. In fact
they all were. They all treated
me as tho I were extra special, and
I liked all of them very much.
Coffee was served all evening and
then there was a snack served
about the half way point. They all
wore blue jumps with light blue
shirts. The guards wore brown and
they also played bridge. At the
end of the evening my partner gave
me a lovely wood carving which

He had made. Another prisoner is going to make a ribbon doll and send to me. He won't get out for two years and has been in for two years so far. A man I met at the bridge games here in town picked me up and I was glad I didn't have to go alone because I didn't know what the procedure was. We had to stop at a guard tower and blink the lights and the guard signaled us on as he recognized the car.

I really have been having a good time in Walla Walla. If it weren't for the bridge games I wouldn't have anything to do. I am going to play again tonight here in town and tomorrow at the day time game.

I will be glad to get home

and look at the mail and
get busy out in the yard.

Mary calls me because
she has a son line for my
place in the state.

I hope you are fine and it
won't be long before you go to
Florida.

Love,
Mom.
